County Clerk Online Record Filing System

Generate More Income While Reducing Your Paperwork!

County Clerk's can now easily have constant filers submit their documents to the office online! eClerk provides the ability to set up an online filing system for the county, electronically handling all the submission and verification process.

PDS developed eClerk to solve many of the filing issues that County Clerk Offices face. Imagine receiving filing requests online... having filing fees automatically calculated and returned... freeing up your staff to get more work done... and generating more income for your office. This is now all available through eClerk for ClerkTrack!

Your Office Benefits

You and your filers will benefit financially from eClerk! Your County Clerk's Office can benefit by either purchasing and hosting eClerk then collect fees from your filere, or you can have PDS host eClerk, use the service for free, and benefit from the reduced paper flow!

eClerk at ClerkTrack.com does all of this while improving office efficiency. The time gains from reducing the number of people that come int o file, plus the financial gains from accurate online fee generation allows eClerk to pay for itself in a short period of time.

How easy is it for a filer to submit critical records online? It just takes a few simple steps:

- Scan the documents
- Save the scans as a gif image
- Log into eClerk
- Upload your documents into a batch
- Submit the batch to the Clerk

That's it! eClerk handles the online submission and recording of critical records information that easily, including land and deed records.

- Reduce Paper Handling
- Automatic Fee Generation
- Improve Clerk Efficiency
- Easily Track Transactions
